Profile

I'm a passionate Frontend Developer specializing in building responsive, cross-platform applications using **React, React Native, and Next.js**. I create seamless, high-performance user experiences, whether on the web or mobile.

My recent focus on **Next.js** has strengthened my ability to build **SEO-friendly**, scalable web solutions. I've contributed to real-world projects like **waseet.net** 🌐 **Al-Haram Al-Makki**, **Digital Car**, and **Instapadel**, where I led UI development, API integration, and performance optimization.

I take pride in clean code, modern design, and staying current with the latest technologies to bring digital ideas to life.

Professional Experience

Front-end Developer, waseet.net

05/2025 – Present

- Mobile App & Web Platform Development
- Contributed to the development and maintenance of **Waseet.net** 🌐 **'s mobile and web platforms**, enhancing the overall experience for users across devices.
- Built responsive and reusable **UI components** using **React Native** for mobile and **Next.js** for web, ensuring seamless cross-platform performance.
- Integrated **RESTful APIs** and dynamic data handling for real-time updates in listings and user interactions.
- Collaborated with designers and backend teams to **translate business requirements** into high-quality, functional features.
- Focused on **code quality, performance optimization**, and **scalability** to support a growing user base.

Front-end Developer, Digital Car 🌐

04/2023 – Present

Cairo, Egypt

- Car-Selling Services App | Saudi Market.
- Spearheaded the development of a cross-platform mobile application designed to **revolutionize car buying and selling** in Saudi Arabia by promoting **transparency, trust, and service quality**.
- Built and maintained **high-performance, scalable L1 UI components** using **React Native**, delivering a seamless and responsive user experience across **iOS and Android** devices.
- Integrated **RESTful APIs** in close collaboration with backend engineers, ensuring real-time data synchronization and smooth user interactions.
- Conducted **performance profiling and optimization**, resolving key bottlenecks to enhance load times and overall app fluidity.
- Contributed to UI/UX decisions, helping shape a user-focused interface aligned with business goals and user expectations.

Front-end Developer, *O-Projects*

09/2022 – 12/2023
Cairo, Egypt

- React.js, Next.js & React Native
- Built and maintained front-end features across multiple **web and mobile applications**, including **Affiliate, Lokle, Glia, and Edactik**, using **React.js, Next.js, and React Native**.
- Designed **intuitive, accessible user interfaces** with a strong emphasis on **usability**, responsive layouts, and mobile-first design.
- Integrated various **third-party APIs** to support **real-time data updates** and enhance overall app functionality.
- Collaborated with cross-functional teams and conducted **code reviews** to ensure **code quality, performance**, and adherence to **best practices** across platforms.

React Native Developer, *Zeidex*

04/2023 – 07/2023
Cairo, Egypt

- Travel Services Platform
- Contributed to the development of **Macqueen**, a travel services platform offering **flight booking, accommodation, and chauffeur services**.
- Built cross-platform mobile features using **React Native**, ensuring consistent **performance and user experience** across iOS and Android.
- Collaborated with **UX designers** to turn wireframes into **functional, production-ready components** with a polished user interface.
- Improved **app scalability and maintainability** by **modularizing code**, implementing **efficient state management**, and adhering to clean architecture principles.

React Native Instructor, *DotPy*

07/2022 – 09/2022
Cairo, Egypt

- Tech Training & Mentorship
- Designed and delivered **comprehensive training sessions** on **React Native** development for both **beginner and intermediate** learners.
- Created **hands-on coding exercises**, real-world projects, and challenges to reinforce key learning objectives and improve practical skills.
- Provided **one-on-one mentorship**, guiding students through **debugging**, code reviews, and understanding core React Native concepts.
- Developed structured **course materials**, including tutorials, slides, and documentation, to support an engaging and effective learning experience.

React Native Developer, *Blue-Brain*

11/2021 – 09/2022
Cairo, Egypt

- E-commerce Mobile Applications
- Developed and maintained **e-commerce applications** such as **Turkish Stores** and **Petal Egypt** using **React Native**, delivering seamless shopping experiences on both iOS and Android platforms.
- Integrated **secure payment gateways** and **user authentication systems**, ensuring user data protection and transaction reliability.
- Boosted app **performance and scalability** through optimized **state management** using **Redux**.

Projects

Waseet.net – Classifieds Platform

React Native, Next.js
Helped build and maintain **Waseet.net's mobile and web platforms**. Focused on UI component development, API integration, and performance tuning. Worked closely with backend and design teams to align features with user needs. ☑

DrugGo - Freelance

React Native | Mobile Pharmacy App
Developed a mobile application for **online pharmacy services**, allowing users to **browse medications, upload prescriptions, and place orders** with ease. Built using **React Native** to support both iOS and Android platforms. Integrated **location services** for nearby pharmacy suggestions, **secure order tracking**, and **in-app notifications** to enhance user engagement. Collaborated directly with the client to deliver features aligned with business goals and healthcare regulations.

Hike-Time - Freelance

React Native | Outdoor Activity App
Developed a cross-platform mobile app for **hiking enthusiasts** to discover and share **trails, trips, and outdoor experiences**. Built with **React Native**, the app offers features like **trail discovery, user reviews, photo sharing**, and **location-based recommendations**. Implemented **interactive maps**, route tracking, and offline access for remote hiking areas. Worked closely with the client to deliver a performance-optimized, user-friendly app tailored to the needs of the outdoor community.

Al-Haram Al-Makki - Misraj Technology

Developed a mobile application for an educational platform offering courses and group interactions for reciters and students. Built using React Native, implemented the courses flow and main pages, and led a redesign of multiple UI components enhance usability and modernize the interface. Ensured cross-platform compatibility and seamless API integration for real-time course updates.

Macqueen – Travel Services App

React Native | Zeidex
Contributed to a travel platform offering **flight booking, hotel accommodation, and chauffeur services**. Worked closely with UX designers to translate wireframes into interactive components. Modularized codebase and implemented **efficient state management** to improve scalability and maintainability.

Oproject Web & Mobile Apps

React.js, Next.js, React Native
Built front-end features for multiple projects including Affiliate, Lokle, Glia, and Edactik. Designed user-friendly UIs, integrated third-party APIs, and maintained code quality through peer reviews. Worked on both web and mobile platforms to ensure a consistent user experience.

Digital Car – Saudi Arabia ☑

Developed a car-selling application to **transform the Saudi automotive market** by prioritizing transparency and user trust. Built using **React Native**, the app includes features for **browsing car listings, scheduling test drives, and secure payment processing**. Integrated **RESTful APIs** for real-time inventory and user authentication, ensuring a seamless and reliable experience.

E-Commerce Apps – Turkish Stores & Petal Egypt

React Native | Blue Brain
Developed e-commerce applications targeting different markets. Integrated secure payment gateways, user authentication, and responsive product listings. Improved performance using Redux and followed Agile practices for rapid feature delivery and iteration.

Education

Bachelor’s Degree in Computer Science and Information Technology,
Tanta University
Grade: Very Good

09/2019 – 07/2023
Tanta University

Skills

- HTML, CSS, JavaScript, TypeScript
 - Node.js, Express, MongoDB, SQL
- React js, React-Native, Next.js

Languages

Arabic
Native

English
Fluent
