Hesham Elgammal

Senior Frontend Engineer | React Native, React & Next.js

heshamelgammal404@gmail.com | +20 109 290 1319 | Cairo, Egypt | Open to relocation to Saudi Arabia
Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Hands-on senior frontend engineer building production iOS, Android, and web applications. Delivered automotive booking flows and Next.js dashboards for Saudi products, improved mobile catalog performance, and automated React Native build distribution. Leads frontend delivery while remaining active in implementation.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS
Frontend: React Native, React, Next.js, TanStack Query, Redux, Tailwind CSS
Delivery & integration: REST APIs, GitHub Actions, CI/CD, Firebase App Distribution, Firebase Cloud Messaging, Git, monorepos
Backend: Node.js, Express.js, MongoDB

PROFESSIONAL EXPERIENCE

Medica Scope | Senior Frontend Developer

Jun 2026 - Present

- Built React Native booking and maintenance flows for CarLink, a Saudi automotive platform with OBD device connectivity.
- Built Next.js dashboards for service centers and administrators in a shared monorepo. Integrated REST APIs for customers, vehicles, bookings, and center operations.
- Automated React Native builds and tester distribution with GitHub Actions and Firebase App Distribution.

Digital Car | Frontend Developer / Frontend Team Lead

Apr 2023 - Present (company tenure) | Website · Google Play · App Store

- Lead frontend delivery for a Saudi automotive marketplace across React Native mobile, Next.js web, and admin interfaces.
- Migrated catalog server state from Redux to TanStack Query and pre-mounted catalog tabs to improve switching responsiveness.
- Supported production app delivery with Firebase Cloud Messaging and S3-backed over-the-air updates.

waseet.net | Senior Mobile & Web Developer

May 2025 - Jun 2026 | Website · Google Play · App Store

- Promoted to senior role while delivering marketplace features across React Native and Next.js, building reusable UI and integrating listing APIs with design and backend teams.

O-Projects | Frontend Developer | Sep 2022 - Dec 2023
Built React, Next.js, and React Native features, integrated third-party APIs, and contributed to code reviews.

Zeidex | React Native Developer | Apr 2023 - Jul 2023
Built mobile features for Macqueen’s travel booking and chauffeur platform.

Blue-Brain | React Native Developer | Nov 2021 - Sep 2022
Built iOS and Android commerce features and integrated payments and authentication.

DotPy | React Native Instructor | Jul 2022 - Sep 2022

SELECTED PROJECT

TeeslaTech | Freelance Full-Stack Developer | Live website
Built and deployed a Next.js storefront and admin dashboard, Express REST API, and MongoDB database as the sole developer.
