Portfolio | LinkedIn | GitHub

PROFILE

Frontend Developer specializing in building responsive, cross-platform applications with React, React Native, and Next.js. I create seamless, high-performance user experiences on both web and mobile, with a recent focus on Next.js for SEO-friendly, scalable web solutions. I've contributed to real-world products including waseet.net, Maysan, Digital Car, Al-Haram Al-Makki, and Instapadel, and independently delivered TeeslaTech end-to-end — frontend, backend, database, and infrastructure. I take pride in clean code, modern design, and staying current with the latest technologies.

PROFESSIONAL EXPERIENCE

Frontend Developer — waseet.net *05/2025 – Present | Cairo, Egypt · Full-time*
Website | Google Play | App Store

- Contributed to the development and maintenance of Waseet.net's mobile and web platforms, enhancing the experience for users across devices.
- Built responsive, reusable UI components using React Native (mobile) and Next.js (web), ensuring seamless cross-platform performance.
- Integrated RESTful APIs and dynamic data handling for real-time updates in listings and user interactions.
- Collaborated with designers and backend teams to translate business requirements into high-quality, functional features.
- Focused on code quality, performance optimization, and scalability to support a growing user base.

Frontend Developer — Car-Selling App — Digital Car *04/2023 – Present | Cairo, Egypt · Part-time*
Website | Google Play | App Store

- Contributed to a cross-platform mobile application designed to improve transparency, trust, and service quality in car buying and selling in Saudi Arabia.
- Built and maintained high-performance, scalable UI components using React Native, delivering a seamless experience across iOS and Android.
- Integrated RESTful APIs in close collaboration with backend engineers, ensuring real-time data synchronization.
- Conducted performance profiling and optimization, resolving key bottlenecks to enhance load times and app fluidity.
- Contributed to UI/UX decisions, helping shape a user-focused interface aligned with business goals.
- Built Maysan, a recruitment platform connecting job candidates with companies, covering both the candidate-facing and company-facing experiences.

Maysan — Google Play | Maysan — App Store

Frontend Developer — O-Projects *09/2022 – 12/2023 | Cairo, Egypt*

- Built and maintained front-end features across multiple web and mobile applications — Affiliate, Lokle, Glia, and Edactik — using React.js, Next.js, and React Native.
- Designed intuitive, accessible user interfaces with emphasis on usability, responsive layouts, and mobile-first design.
- Integrated third-party APIs to support real-time data updates and enhance app functionality.
- Collaborated with cross-functional teams and conducted code reviews to ensure code quality and adherence to best practices.

React Native Developer — Travel Services Platform — Zeidex *04/2023 – 07/2023 | Cairo, Egypt*
Google Play | App Store

- Contributed to Macqueen, a travel services platform offering flight booking, accommodation, and chauffeur services.
- Built cross-platform mobile features using React Native, ensuring consistent performance across iOS and Android.
- Collaborated with UX designers to turn wireframes into functional, production-ready components.
- Improved scalability and maintainability by modularizing code and implementing efficient state management.

React Native Instructor — Tech Training & Mentorship — DotPy *07/2022 – 09/2022 | Cairo, Egypt*

- Designed and delivered training sessions on React Native for beginner and intermediate learners.

- Created hands-on coding exercises and real-world projects to reinforce key learning objectives.
- Provided one-on-one mentorship covering debugging, code review, and core React Native concepts.
- Developed structured course materials, including tutorials, slides, and documentation.

React Native Developer — E-commerce Mobile Applications — Blue-Brain *11/2021 – 09/2022 | Cairo, Egypt*

- Developed and maintained e-commerce applications (Turkish Stores, Petal Egypt) using React Native for iOS and Android.
- Integrated secure payment gateways and user authentication systems.
- Boosted app performance and scalability through optimized state management using Redux.

SELECTED INDEPENDENT PROJECTS

DrugGo — Mobile Pharmacy App — Freelance *React Native*

Google Play

- Built a mobile app for online pharmacy services: browsing medications, uploading prescriptions, and placing orders.
- Integrated location services for nearby pharmacy suggestions, secure order tracking, and in-app notifications.
- Collaborated directly with the client to align features with business goals and healthcare regulations.

Hike-Time — Outdoor Activity App — Freelance *React Native*

- Built a cross-platform app for hiking enthusiasts to discover and share trails, trips, and outdoor experiences.
- Implemented interactive maps, route tracking, and offline access for remote hiking areas.

TeeslaTech — Full-Stack Web Platform & Admin Dashboard — Freelance *Next.js Monorepo · Express · MongoDB*

teeslatech.com | admin.teeslatech.com

- Owned the project end-to-end as sole developer: frontend, backend, database, server, and domain setup.
- Built the public website and admin dashboard in a single Next.js monorepo for shared code and consistent tooling.
- Developed the backend API with Express.js and modeled data using MongoDB (Mongoose).
- Deployed and configured the full stack on a Hostinger VPS, including domain and DNS setup for both teeslatech.com and admin.teeslatech.com.

EDUCATION

Bachelor's Degree in Computer Science and Information Technology

Tanta University | 09/2019 – 07/2023 | Grade: Very Good

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frontend & Mobile: React.js, React Native, Next.js, Redux, Tailwind CSS

Backend & Data: Node.js, Express, MongoDB, SQL, Firebase, RESTful APIs

Tools: Git, Hostinger VPS, Domain & Deployment Management

LANGUAGES

Arabic — Native | English — Fluent
