Hesham Elgammal

Senior Frontend Developer | React.js | React Native | Next.js

heshamelgammal404@gmail.com | +20 109 290 1319 | Cairo, Egypt | Egyptian

Portfolio | LinkedIn | GitHub

PROFILE

Senior Frontend Developer specializing in React.js, React Native, and Next.js, with experience delivering production web and mobile applications, scalable dashboards, and end-to-end digital products. Experienced in frontend architecture, team leadership, monorepos, REST API integration, performance optimization, CI/CD, and AI-assisted development using Cursor and Claude. Currently working across web and mobile products, including automotive services in Saudi Arabia.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Medica Scope

06/2026 – Present | Cairo, Egypt · Full-time

- Developing CarLink, a Saudi automotive service platform connected to vehicle OBD devices and digital maintenance workflows.
- Working across React.js, React Native, and Next.js as a senior frontend engineer.
- Built React Native experiences for vehicle connectivity, service requests, maintenance flows, and booking service centers for services such as oil changes and brake maintenance.
- Built Center Dashboard and Admin Dashboard using Next.js within a shared monorepo architecture.
- Implemented reusable frontend architecture and integrated REST APIs across customer, vehicle, booking, service-step, and center-management workflows.
- Implemented CI/CD with GitHub Actions to build React Native releases and distribute them through Firebase App Distribution.
- Used Cursor and Claude for AI-assisted implementation, debugging, refactoring, and development workflows.

Senior Mobile & Web Developer — waseet.net

05/2025 – 06/2026 | Cairo, Egypt · Full-time

Website | Google Play | App Store

- Promoted to Senior Mobile & Web Developer, taking ownership of production features across React Native mobile and Next.js web applications.
- Built responsive, reusable UI components and integrated RESTful APIs for listings, user interactions, and dynamic data.
- Collaborated with designers and backend teams to translate business requirements into scalable, production-ready features.
- Focused on frontend quality, performance optimization, maintainability, and cross-platform delivery.

Frontend Team Lead — Digital Car

04/2023 – Present | Cairo, Egypt · Full-time

Website | Google Play | App Store

- Working as Frontend Team Lead for the last 4 months, with responsibility across the frontend development of the product.
- Lead frontend delivery across React Native mobile and web-facing experiences, coordinating implementation and maintaining development standards.
- Contributed to a Saudi automotive platform covering car buying, selling, and automotive service experiences.
- Built and maintained scalable React Native UI components and integrated RESTful APIs with backend services.
- Conducted performance profiling and optimization and contributed to product UI/UX decisions and business flows.

Frontend Developer — O-Projects

09/2022 – 12/2023 | Cairo, Egypt

- Built and maintained frontend features across Affiliate, Lokle, Glia, and Edactik using React.js, Next.js, and React Native.
- Designed responsive interfaces, integrated third-party APIs, collaborated with cross-functional teams, and participated in code reviews.

React Native Developer — Travel Services Platform — Zeidex

04/2023 – 07/2023 | Cairo, Egypt

Google Play | App Store

- Contributed to Macqueen, a travel services platform for flight booking, accommodation, and chauffeur services.
- Built cross-platform React Native features and improved maintainability through modularization and efficient state management.

React Native Instructor — DotPy

07/2022 – 09/2022 | Cairo, Egypt

- Delivered React Native training for beginner and intermediate learners, including practical exercises, debugging, code review, and structured course materials.

React Native Developer — Blue-Brain

11/2021 – 09/2022 | Cairo, Egypt

- Developed and maintained Turkish Stores and Petal Egypt e-commerce applications using React Native for iOS and Android.
- Integrated payment gateways and authentication and improved performance through optimized Redux state management.

SELECTED INDEPENDENT PROJECTS

TeeslaTech — Full-Stack Web Platform & Admin Dashboard — Freelance

Next.js · React · Node.js · Express.js · MongoDB · Mongoose · Monorepo · Hostinger VPS · AI-assisted development

teeslatech.com | Admin Dashboard

- Owned the product end-to-end as sole developer, covering the client website, admin dashboard, backend API, database, VPS, domain, and deployment.
- Built the public client website and admin dashboard using Next.js in a shared monorepo with reusable code and consistent tooling.
- Developed backend APIs with Node.js and Express.js and modeled application data using MongoDB and Mongoose.
- Deployed and configured the full stack on a Hostinger VPS, including production server, domain, and DNS setup.
- Used Cursor and Claude to accelerate implementation, debugging, refactoring, and development.

DrugGo — Mobile Pharmacy App — Freelance

React Native

Google Play

• Built a mobile pharmacy app for medication browsing, prescription uploads, ordering, nearby pharmacy suggestions, order tracking, and notifications.

Hike-Time — Outdoor Activity App — Freelance

React Native

• Built a cross-platform hiking app with trail discovery, interactive maps, route tracking, and offline access.

EDUCATION

Bachelor's Degree in Computer Science and Information Technology

Tanta University | 09/2019 – 07/2023 | Grade: Very Good

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS
Frontend & Mobile: React.js, React Native, Next.js, Redux, Tailwind CSS
Backend & Data: Node.js, Express.js, MongoDB, Mongoose, SQL, Firebase, RESTful APIs
Architecture & DevOps: Monorepo, GitHub Actions, CI/CD, Firebase App Distribution, VPS, DNS, Deployment
AI & Developer Tools: Cursor, Claude, Git, Hostinger VPS

LANGUAGES

Arabic — Native | English — Fluent
